

MacNeal
Hospital

PGY-1 Pharmacy Residency Program

ABOUT US

MacNeal Hospital is proud to be a part of Loyola Medicine and Trinity Health. For over a century MacNeal Hospital, located in Berwyn, IL has been providing quality healthcare in the near western suburbs and the city of Chicago.

We are currently recruiting 2 residents for the upcoming 2026-2027 residency year.

Our ASHP-accredited program is designed for pharmacists seeking to excel in the acute care hospital setting. We aim to develop clinical practitioners who possess the clinical expertise and confidence to deliver comprehensive pharmaceutical care to patients. Residents will be integrated into the pharmacy department and interdisciplinary medical teams, serve on hospital-wide committees, and participate in projects and quality improvement activities. Residents will complete a teaching certificate at Loyola University Medical Center and gain experience precepting pharmacy students. Residents will be prepared to pursue board certification in pharmacotherapy (BCPS), and seek advanced education and training opportunities, including postgraduate year two (PGY2) residencies.
