LOYOLA  
MEDICINE

## Orthopaedic Residency

Initial accreditation earned in 2012

## Woman's Health Residency

Initial accreditation earned in 2016

4 components to our residency programs:

**Clinical** -each participant will see a full (40hr/week) case load of patients that covers all diagnostic categories/areas of the specific program they are participating in

**Mentoring** -each resident will receive 4.5 hours of one-on-one clinical mentoring per week totaling over 200 hours for the year

**Didactics**-including 3 hours per week of classroom lectures and hands-on lab sessions, as well as at home reading assignments

**Research**-journal clubs, case report presentations, and participation in research projects

**ABPTRFE**

Accredited  
Program

# Loyola Medical Center Residency Programs

Tuition cost: \$3,500

Application Fee: \$50

Books and additional fees: \$625 for ortho residency and \$200 for woman's health residency

Applicants must have APTA membership and include appropriate specialty section memberships, CPR certification, and a valid PT license to practice in IL

Residents earn an hourly rate equal to a level 1 physical therapist at Loyola Medicine. Residents are only paid during patient care hours. Residents are not paid for didactic sessions, research activities, or time reading and studying individually

Benefits (PTO, Medical, Dental) are **not** included. Residents must obtain benefits individually

Residents are required to work 40 hours per week of patient care

Additional time is required to attend weekly didactic lab sessions, individual reading and studying, and research activities outside of the required 40 hours patient care work day.
