

Ectopic and Early Pregnancy Loss

*Created for Emergency
Department Perinatal Providers
but applicable to so many more:*

- Emergency Department Staff
- Prenatal Care Providers
- Obstetricians
- Midwives
- Community Educators
- Nurses
- Doulas
- Residents and Students

Guest Speaker:

Rebecca Hellmann, DO, MEd is a board-certified physician in Emergency Medicine, fellowship-trained in both Medical Education and Women's Reproductive Health. She currently serves as Director of Clinical Education for FemInEM and works clinically as a nocturnist at Weill Cornell Medical Center in New York City.

2 CEs available upon submission of evaluation through Loyola CPPD accredited by ANCC.

Objectives:

- Describe the evidence-based emergency evaluation and management of ectopic pregnancy and early pregnancy loss
- Identify time-sensitive complications in early pregnancy
- Summarize current Illinois laws and regulatory requirements relevant to emergency department care of reproductive-age patients
- Differentiate how Illinois statutes regarding reproductive healthcare impact clinical decision-making in the ED
- Discuss strategies to provide unbiased, trauma-informed, and culturally sensitive emergency care
- Implement best practices for coordinated follow-up, counseling, and referral
