Prevalence and Severity of Diverticular Disease in the Post-Lung Transplant Population - A Single Center’s Experience

3rd Place
Taishi Hirai, PGY3
George Cotseones, PGY2
Usefulness of Left Ventricular Diastolic Function to Predict Recurrence of Atrial Fibrillation in Patients with Preserved Left Ventricular Systolic Function

Dr. Arti Rupani Garg

A 2011 Loyola Internal Medicine graduate, Dr. Arti Rupani Garg was a physician of impeccable character and charm. As a resident at Loyola, she displayed a love for teaching, a passion for research and a focus on excellent patient care. Our annual resident research day was renamed in honor of Dr. Garg and her positive contributions to Loyola’s Internal Medicine Residency Program.

Thank you to the many dedicated faculty research mentors who take the time to work with our residents!
