Resident Face To Face Feedback

This document will stand to establish guidelines for the residents of the general surgery program regarding evaluations at the end of each designated rotation.

- Each surgical service with residents will have one attending that is designated to each PGY level.
- This designated attending will deliver Face to Face feedback on the residents' performance while they were on service.
- This evaluation can be the collaboration of the entire service's experience with the resident and should be also reflected in their written evaluation.
- This meeting is not to take the place of the new innovations written evaluations - it is meant to supplement the evaluation process and provide formative feedback.
- It is the responsibility of the resident to arrange the meeting with the attending one week prior to the completion of their rotation.
- The attached list of designated attendings and their associated assistants will help to facilitate this meeting.
