

Testimonials

This internship shaped me into a more proficient healthcare professional and emphasized the significance of preventative care. I hope to use the skills I learned here as I enter the workforce. I recommend pursuing an internship at MacNeal's Cardiac Rehab, as it opens doors to numerous opportunities in the healthcare field!

Emily Reynoso-Romero, CEP, ISU Alumni

As an intern at MacNeal, you will become a true medical professional. They provide the best patient care, EKG training, and professional training. Learning EKGs, hands on patient experience was the best way to learn. I would highly recommend this internship to anyone considering applying; it showed the reality of being a healthcare worker and helped me fall in love with the healthcare pathway.

Lindsey Ahern, Loyola University Chicago Alumni,
PT Student UIC

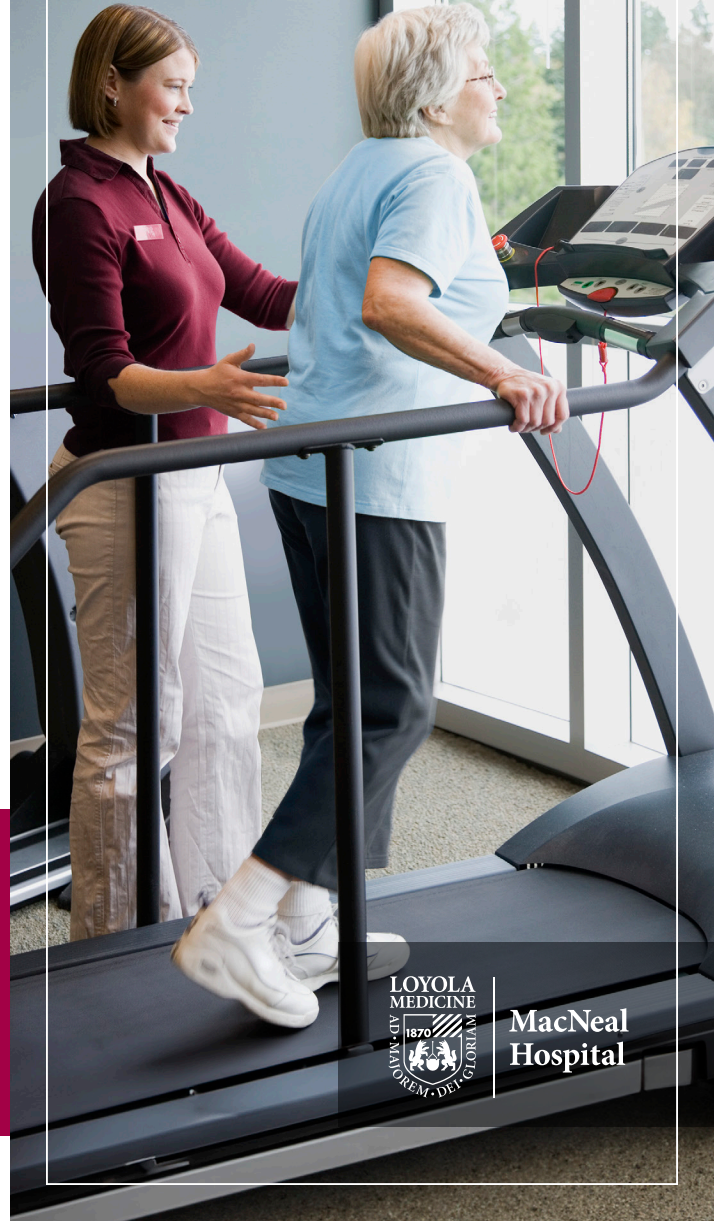

Upon completion of my internship, I was able to pass my ACSM-CEP certification and was offered a full-time position with MacNeal Hospital. If you are thinking of wanting to work in a rehabilitation healthcare setting, I highly recommend completing an internship at MacNeal Hospital's Cardiac Rehabilitation to gain immeasurable hands-on experience and a passion for a career in healthcare.

Caitlyn Muhlig, MS, ACSM-CEP, Loyola University
Chicago Alumni
