ABOUT THIS PROGRAM: Take if: You're a clinician who has completed entry-level/basic fetal monitoring education and use fetal heart monitoring in the intrapartum setting.

This course addresses principles of fetal heart monitoring and may be used as a knowledge assessment tool to validate comprehension of experienced perinatal clinicians. This course includes lecture, hands-on skill stations including performing Leopold maneuvers, placement of an intrauterine pressure catheter and fetal spiral electrode, interpretation of fetal monitoring tracings using a case-based approach, identification of physiologically based clinical interventions, and communication and risk management principles. Online prerequisite education is required prior to attending the one-day course This course can be used to support preparation for certification examinations. AWHONN is approved by the California Board of Registered Nursing, Provider #CEP580.

Registration Fee \$40.00 to APC Perinatal Center and 145.00 to Kendall-Hunt for required class material

1. Scan QR code or click link to register through APC website <https://www.loyolamedicine.org/APC>
2. Once registered, the APC will send you an email with the link needed to order the class materials to complete prework, you will need workshop ID TYTW2657248
